## WORKFORCE HOUSING SOLUTIONS (WHS)

Companies who own property, land-lease, have large job sites and/or plants are recognizing the value of having workers on site permanently for infrastructure needs.

WHS eliminates the need for companies to rent hotel rooms and/or offsite rental housing. AVONMODULAR buildings provide the best solution for remote area sites where accommodations would otherwise not be available.

AVONMODULAR (WHS) can be configured to meet a variety of needs, including: bunkhouses, galley kitchen, dining, laundry, business office, training facility, medical center and multipurpose facilities.
